Every Niece and Nephew of Uncle Sam

should be deeply interested in what he has said about soda
crackers, because they are the one food with which all of
them are familiar.

Uncle Sam has given cut figures showing that soda
crackers are richer in nutriment and body-building elements,
properly proportioned, than any food made from flour.

This is saying much for common soda crackers, and
much more for **Uneeda Biscuit**, because they are
soda crackers of the best quality. They are baked better—
more scientifically. They are packed better—more cleanly.
The damp, dust and odor proof package retains all the good-
ness and nutriment of the wheat, all the freshness of the best
baking, all the purity of the cleanest bakeries.

Your Uncle Sam has shown what food he thinks best
for his people. His people have shown that they think
Uneeda Biscuit the best of that food, nearly
400,000,000 packages having already been consumed.
